

CC3-GL
CLIMATE CONTROL SYSTEM

Ventilation • Heat Recovery • Pressure Control

Lower your energy costs with an investment that pays for itself

ChickMaster

One intelligent climate control system. One central outdoor location. Countless benefits.

Much more than just an HVAC system. It's an intelligent investment and peace of mind.

Complete Climate Control System

- Ventilation system designed to manage temperature, humidity and static pressure to ensure optimal results from the incubation systems
- Integrated chilled water distribution system with buffer tanks provides optimal conditions for setters, hatchers and ventilation
- Heat recovery function provides the perfect solution for heating and dehumidifying air to create the optimal incubation environment in any climate
- Zeus GLS Control System manages all functions to optimize performance

Saves Up to 35% in Energy Costs

- Zeus GLS Control System automatically manages temperature, humidity, air pressure and water flow to create the ideal incubation environment
- Heat recovery function utilizes heat energy from the incubation process to warm up or dehumidify ambient air for free
- Variable speed motors on the chiller circuit pumps and air handling unit reduce energy usage
- Optional Dry Air Cooling Module offers additional energy savings by reducing water chiller demand

Savings from Day One in Space, Time and Installation Costs

- Outside installation saves on valuable building space
- Arrives factory-tested and ready for installation, requiring minimal use of contractors and start up time
- One central location reduces installation and future maintenance costs

Range of Capacities for the CC3-GL

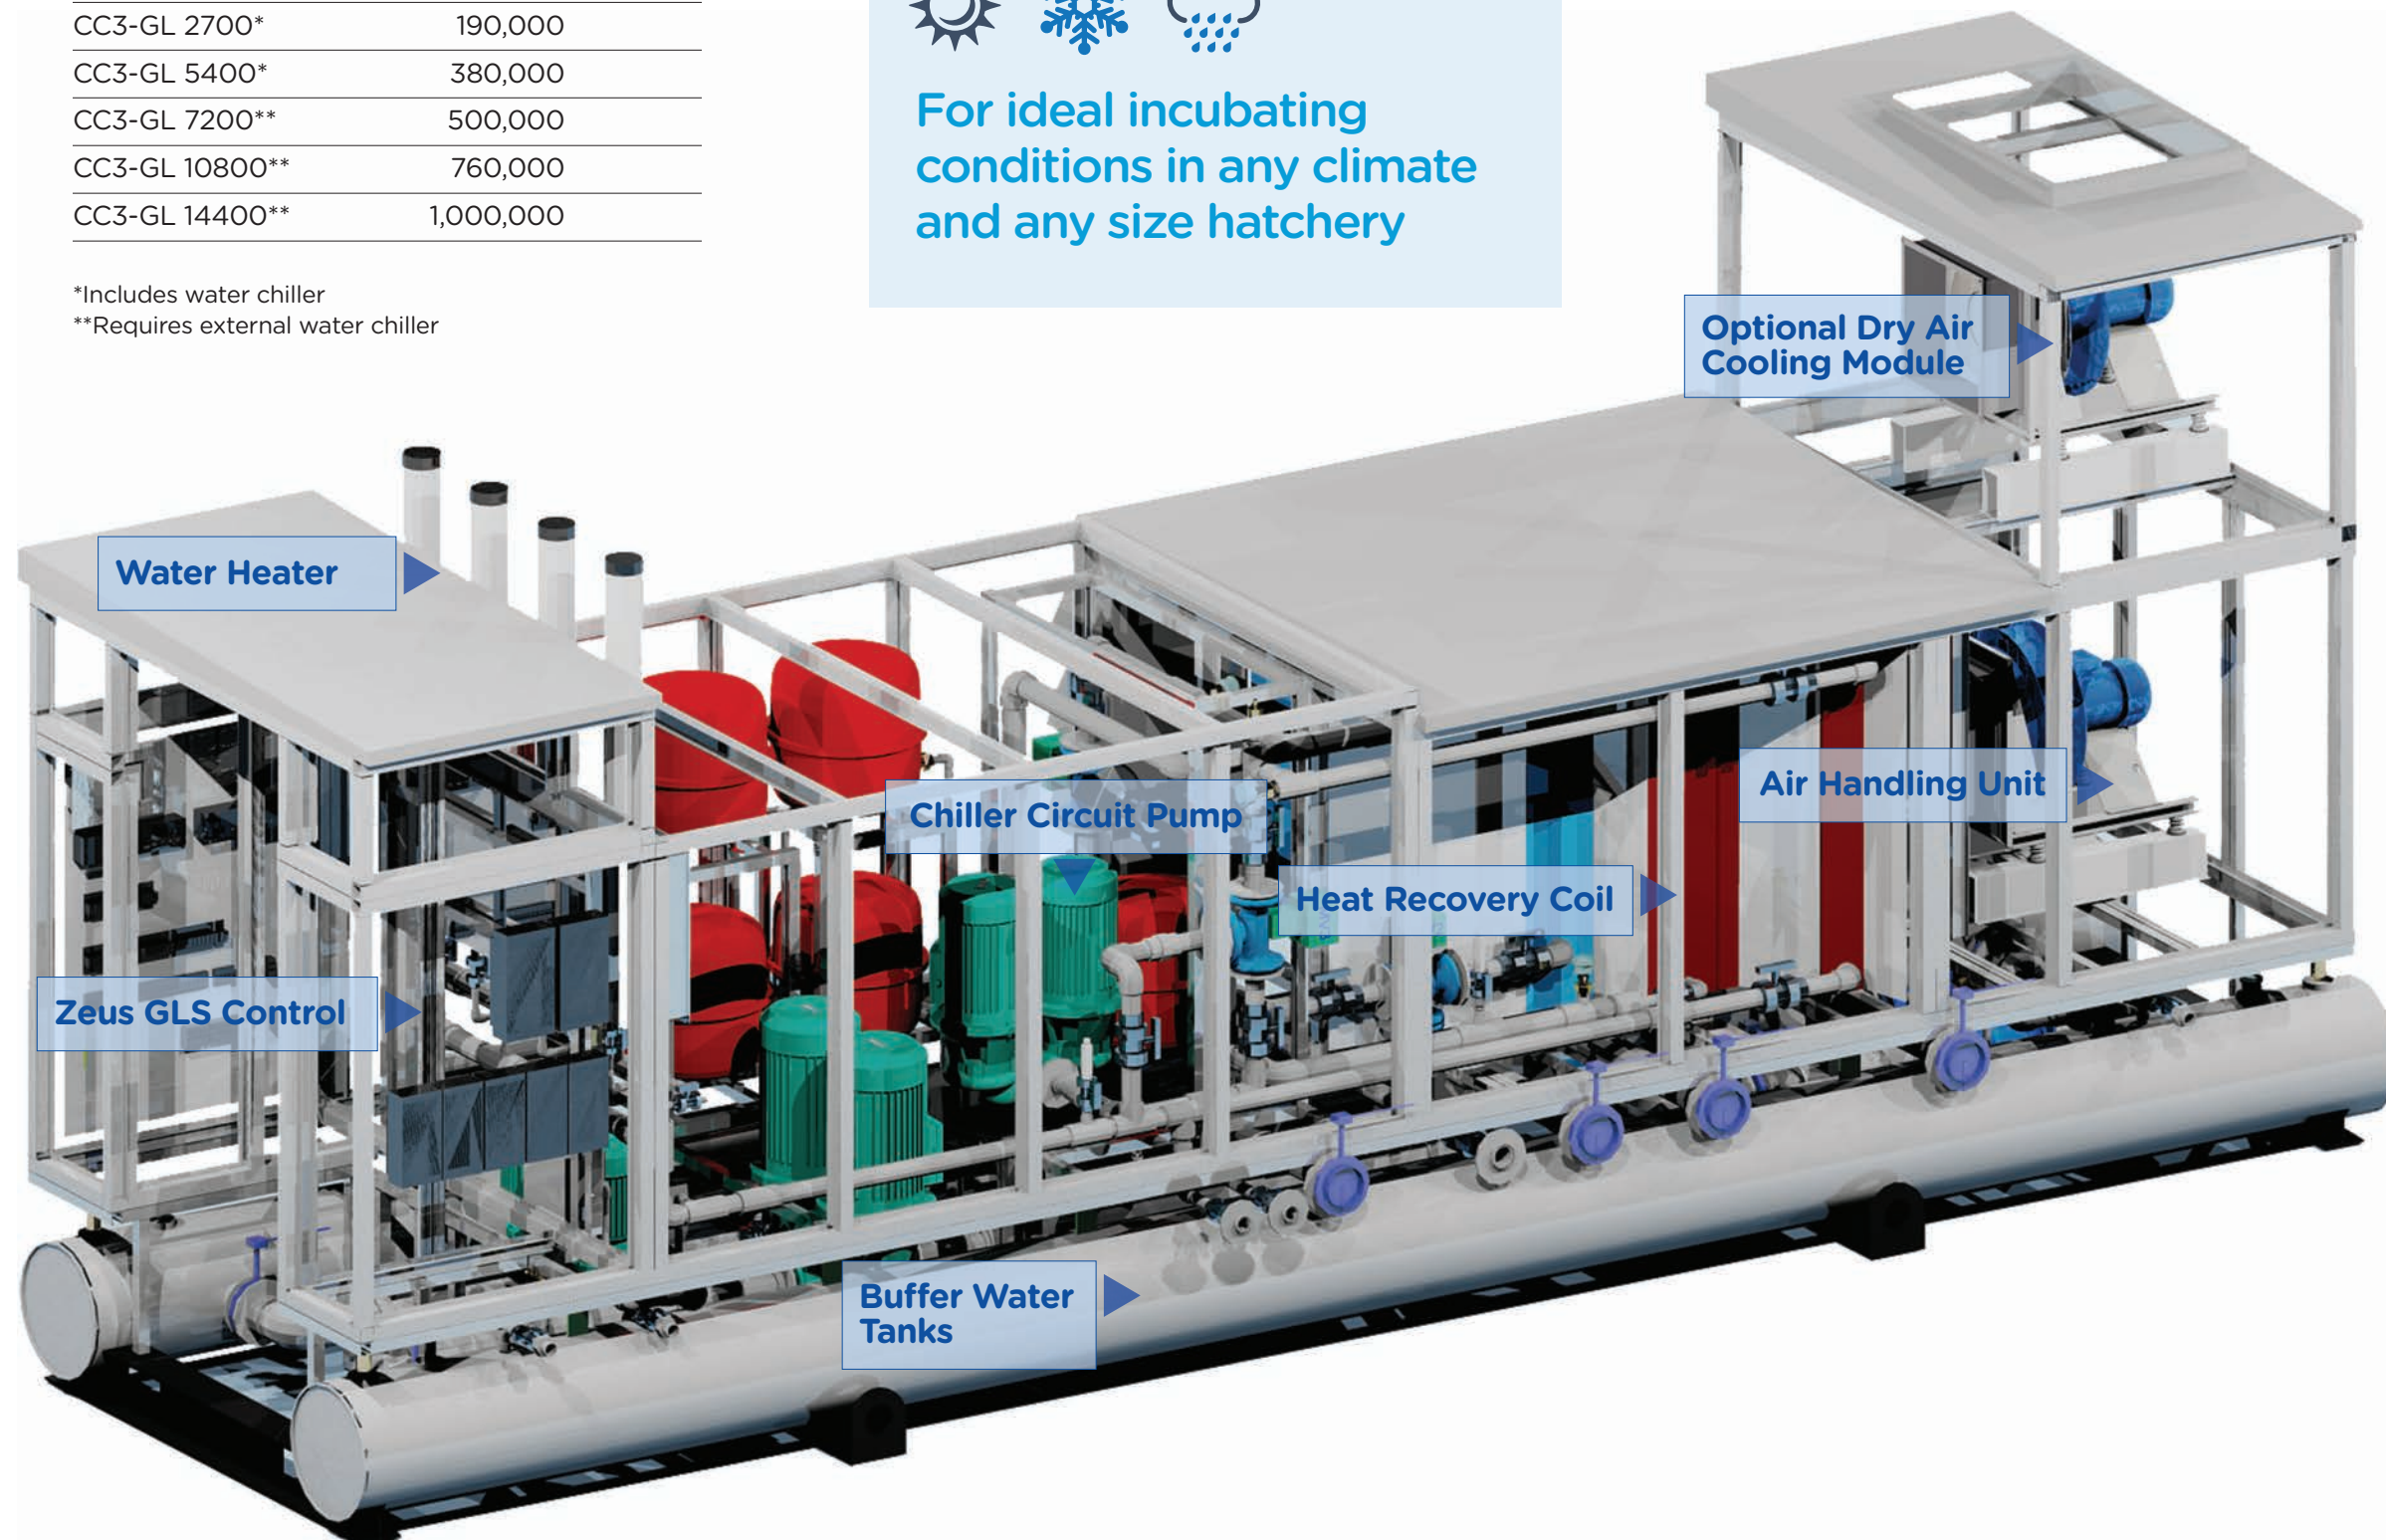

| Model | Maximum Weekly Egg Set |
|----------------|------------------------|
| CC3-GL 2700* | 190,000 |
| CC3-GL 5400* | 380,000 |
| CC3-GL 7200** | 500,000 |
| CC3-GL 10800** | 760,000 |
| CC3-GL 14400** | 1,000,000 |

*Includes water chiller

**Requires external water chiller

For ideal incubating conditions in any climate and any size hatchery

Ducts connect CC3-GL to the hatchery

Optional remote Zeus touch screen

CC3-GL connection to water chiller

Easy access to all compartments

ChickMaster provides a complete line of products and services that meet the needs and demands of today's hatcheries.

About ChickMaster

Since its founding in 1948, ChickMaster has evolved into one of the most comprehensive and technologically advanced partners for hatcheries around the globe. The Company maintains its longstanding commitment to building and supporting leading-edge setters and hatcher. In addition, ChickMaster offers products and solutions that complement any environment, optimizing hatchability through better air, moisture, and security controls. **Learn more at www.chickmaster.com.**
