Ventilation Upgrade Kit (with Vosterman's Fan Boards and Fans)

Improve your airflow, energy consumption, bio-security and maintenance by removing copper ducts and wooden fan boards.

- Provides a less turbulent airflow creating a more stable environment to produce high quality, uniform chicks
- Heater elements and humidity delivery system neatly mounted on the plastic fan frame provides even heat
- High efficiency fans can save up to 24% on your electricity
- Easy release catch for instant access for maintenance and cleaning
- Replaces wooden fan boards improving bio-security
- Simple to install requiring minimal time and labour

The upgrade for Classic Series Setters includes a high intensity lighting system mounted conveniently between the fan boards for improved visibility while working inside the setter
